# Findhelp User Guide and Social Care Network Referral Guide

# Data Collection Forms

# What are Data Collection Forms?

Data collection forms are like screener forms that your organization can fill out AFTER the referral has come to you. Like Screener forms, these are completely customizable. Data Collection forms can be a good way to collect additional information on referrals and run reporting on this information. Examples could be

- Number of contact attempts
- Additional services given
- Client completed or didn't complete program

Did this individual enroll in additional programs?

- ☐ Yes; food pantry
- ☐ Yes; job training
- ☐ Yes; housing support
- ☐ Yes; financial literacy
- ☐ No; has not enrolled in additional programming or is not interested
- ☐ No; could not get individual help

What social barriers does the individual currently have?

- ☐ None
- ☐ Childcare Access
- ☐ Employment

These are example questions; your data collection form is completely customizable and may be very different.

# Creating your data collection form

The screenshot shows the 'Highmark Demo Food Bank' dashboard. At the top, there's a header with 'HD' and a search bar. Below the header, there are filters for 'Referred On', 'Referral Status', and 'Last Updated'. A table displays 7 results with columns: Referred On, Applicant, Referred By, Referral Status, Comment, and Last Updated. A dropdown menu is open, showing options: '+ Add Referral', 'Settings', 'Edit Internal Data Collection Form', and 'Condensed View'. The 'Edit Internal Data Collection Form' option is highlighted with a circled '2'. The 'Settings' option is circled with a '1'. The table shows a referral for 'Brad Eddy' on '8/8/2024' with a status of 'Not Updated'. The footer includes 'Allegheny Health' and a 'Forms' dropdown menu.

+ Add Referral Settings

Edit Internal Data Collection Form

Condensed View

Forms English

Once you know what data you'd like to collect, go to your inbound referral dashboard and take the following steps:

1. In the upper right corner, click "Settings."
2. Click "Edit Internal Data Collection Form." You may see the message "Add a Data Collection Form" if you haven't added a form yet. If that's the case, click on that instead.

# Data collection form options

↑ Did this individual enroll in additional programs? ✎

↓ Question type: Checkbox

☐ Required

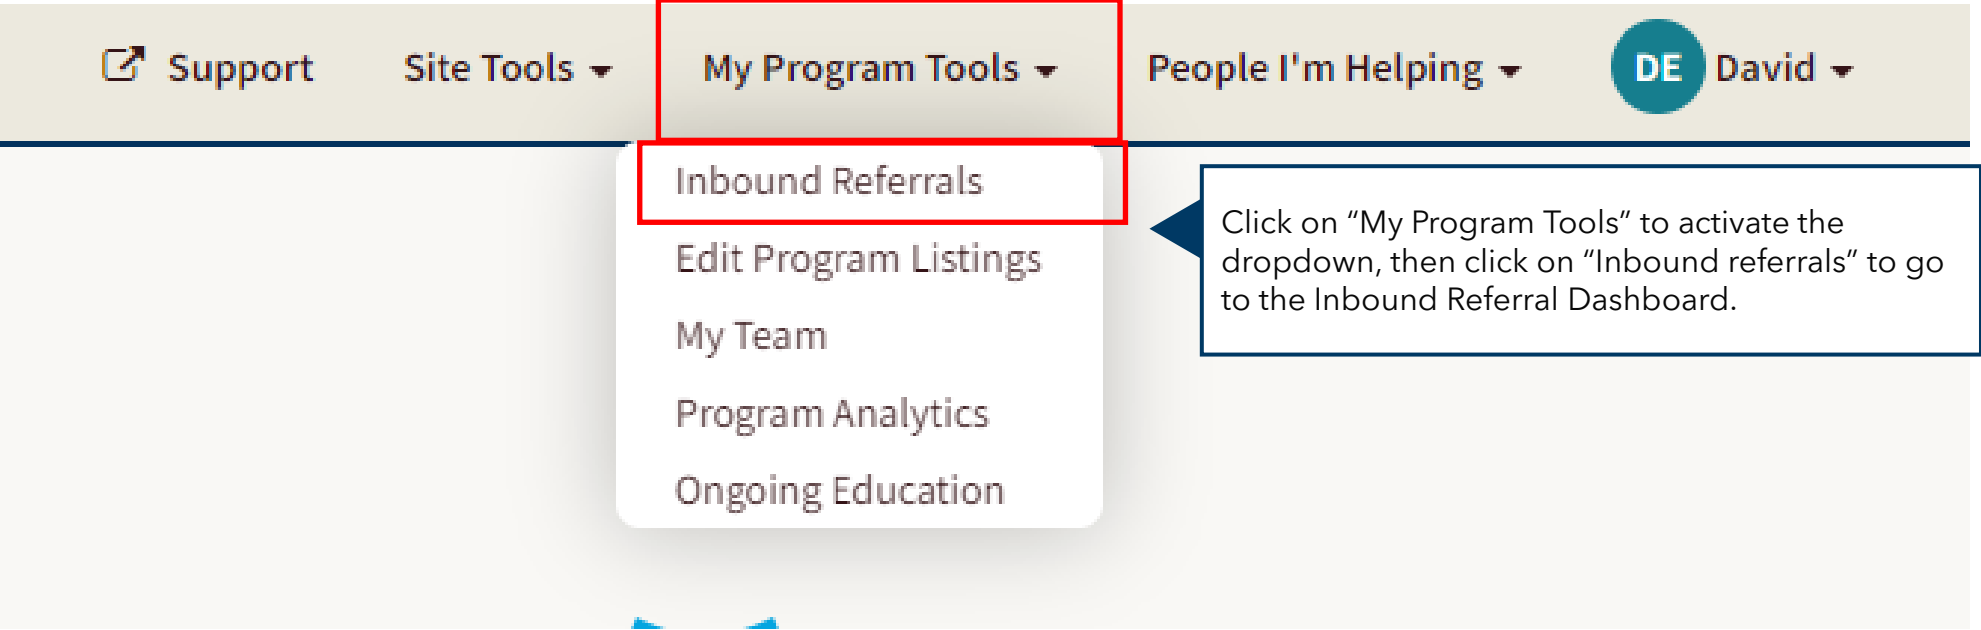

Options for this question:

|   |   |
|---|---|
| Option *<br>Yes; food pantry  | × |
| Option *<br>Yes; job training   | × |
| Option *<br>Yes; housing support  | × |
| Option *<br>Yes; financial literacy   | × |
| Option *<br>No; has not enrolled in additional programming or is not interested | × |
| Option *<br>No; could not get individual help                                   | × |

PUBLISH

- Like screener forms, data collection forms allow you to
- Have different sections of questions (e.g., living situation, or income level)
  - Customize questions and answer formats
  - Make questions optional or required
  - Help determine eligibility for a program
  - Customize a message after the form is completed relating to eligibility
